About us

- Aim
  - We prepared the project which aim is to enable contact between people who wants to take part in extra activites (PARTICIPANTS) and COMPANIES which offer gaining knowledge or activities. There are following functionality available:
    - searching activities by: activity type, place, age, days and hours of activities,
    - presenting search results on the map so that the potential participant can find the best place,
    - direct communication with teacher by sending emails or messages,
    - direct activites registration,
    - adding PARTICIPANT by activity organizer, automatic invitation to using the account,
    - using register where a PARTICIPANT can check his/her progress and check individual information from a teacher.
    - receiving interesting advertisements regard of location,
    - automatic information about activities nearby,

- targeting advertisement for companies,
- monitoring user track in order to prepare the best, dedicated offer,
- monitoring children during his/her way to extra activities;
- Contact
  - Contact form
  - Address information
  - Social media
- Advertisement
  - Adding advertisement conditions
  - Promoted advertisement conditions
- Regulations
  - System regulation
  - Consent for the use of data by the System

#### Social portals

- Facebook
- Twitter

#### Copyrights

## TABLES

### Company

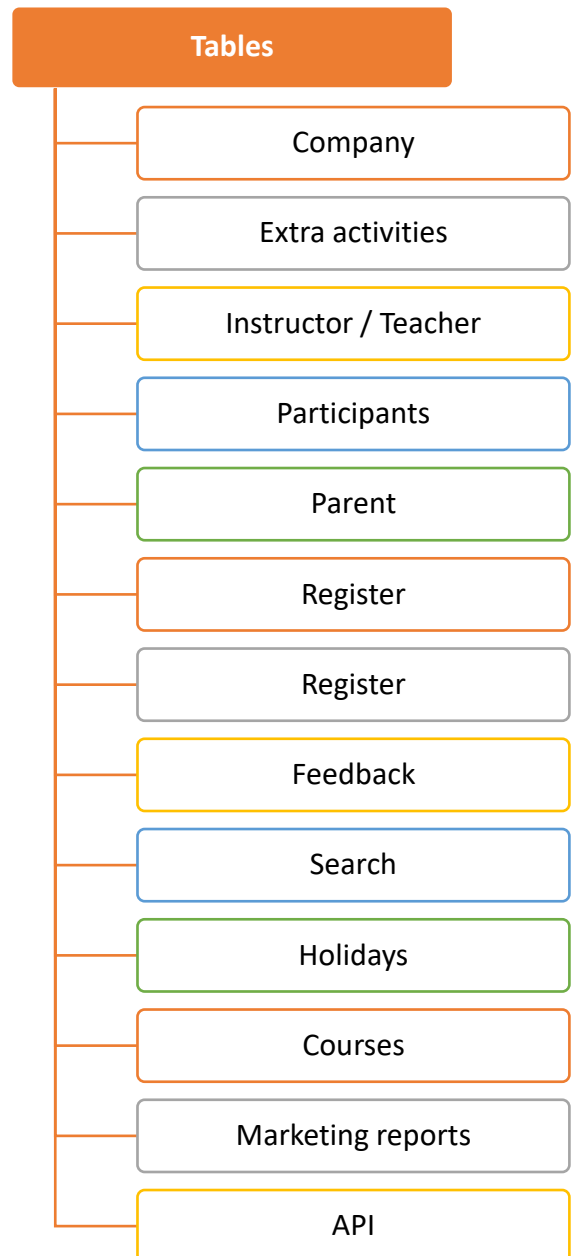

- NIP
